NMFS published a final rule on May 19, 2006 (71 FR 29087), announcing the North Atlantic baseline commercial quota for the 2006 fishing year. These quotas are adjusted annually based on over- and underharvests, the number of fish discarded, and changes in the amount allocated to the United States at the annual International Commission for the Conservation of Atlantic Tuna. This FAX notice is a courtesy to Atlantic swordfish fishery interests to keep you informed about your fishery.
